

PRP/Case Management

Our Psychiatric Rehabilitation Program (PRP) and case management services are dedicated to aiding individuals in navigating life's challenges, while concurrently striving toward their mental health objectives.

Therapy

Our team offers comprehensive mental health care services for all ages across the state, including telehealth services for challenges such as mood disorders, anxiety, schizophrenia, behavioral disorders, ADHD, and more.

Medication Management

Our board-certified psychiatrists and psychiatric nurse practitioners specialize in treating the root symptoms of mental health issues in both acute and chronic situations. They are committed to assisting patients through their healing journey.

We Are Now Accepting New Clients!

Maryland Wellness is committed to providing tailored mental health care and life skills coaching that strengthens our clients, their families, and the broader community. We offer our support to everyone, regardless of age or circumstance, including those who are at-risk and under-served. Our goal is to help each reach their full potential through our mental health services.
