Re: NSPIRE Inspection

Date: August 21st, 2026

In July, you were given a notice that there will be a HUD inspection on August 27th through September 4th 2026. This is to serve as your reminder that this will be occurring next week. Additionally, a Quality Assurance Inspector (QAI) may choose to visit the property after the inspection. If our property is picked by the QAI, that person could be on the property during the days following the inspections, September 7th through September 11th, 2026, and would enter any apartments during that time.

Throughout the rest of next week until the first day of the inspection, Maintenance Personnel will be completing their inspections and repairs on apartments and outside of the buildings. Please do everything you can to keep the property and your apartment cleaned.

If you have any questions, please contact Property Management.
