Re: Camera System Upgrades

Due to issues with equipment delivery, the camera system upgrade schedule has changed. Building 7 work has been moved to Tuesday, September 22nd, 2026. After further consideration, it was determined that Building 2 will not need to be entered for this work at all.

Please make sure that if your apartment has the attic access, a path is cleared for them to place ladders around the access point. The day that they work on the building will involve your apartment more than other apartments. Multiple trips will be needed throughout the day to complete the set up. All apartments in the building may need to be entered to reroute wiring.

Please make sure all animals are crated and your children are supervised.
