Re: Cable Line Upgrades in Apartments

Starting Monday, November 2nd, 2026, Breezeline and their subcontractor MasTec will be entering all apartments to begin installing new upgraded cable, which will enhance internet and digital services. This is being done at no cost to you or to the agency.

According to the contractor, the bedrooms will be used in order to install the correct hardware. They will be utilizing the closet of the bedroom as well in order to drop cables. Because every apartment lay out is not the same, there is no way to share with tenants in advance which closet/bedroom will be used.

Contractors will be going in and out at random times until each building is completed. As they drop cables, there will be some drilling and vibrations through the concrete building, as well as while they walk on the roof.

Please make sure all animals are crated and your children are supervised.

The schedule will be as follows:

Monday, November 2nd – Wednesday, November 4th – Buildings 11 and 12

Thursday, November 5th and 6th – Building 7 (there were items that could not be completed when initially scheduled due to transportation setbacks.)
